

September 21, 2022

To: The Market Surveillance Administrator, Market Participants and Other Interested Parties (“Stakeholders”)

Re: **Session 2 Topics for September Stakeholder Consultation Sessions on Draft Proposed Amendments to ISO Rules and Definitions to Enable Energy Storage (“Energy Storage ISO Rule Amendments”)**

On September 13, 2022, the AESO provided a survey link for Stakeholders to confirm the topics that they wish to discuss at Session 2 on September 26, 2022. Five Stakeholders responded to the survey and requested that the AESO review the following items:

- The proposed changes to Section 303.1, *Load Shed Service for Imports* to support the technology-agnostic provision of fast frequency response (“FFR”) service, and related information on the AESO's FFR pilot procurement (“FFR Pilot”) and;
- Market participation of co-located facilities that are metered and dispatched separately.

The AESO confirms that it will host Session 2 to review these two topics. Stakeholders are also invited to raise any other remaining questions related to the Energy Storage ISO Rule Amendments at Session 2.

The AESO is currently preparing a brief presentation, which will largely be a refresher of material from the February 24, 2021 Stakeholder Session.¹ In the interim, the following agenda is provided to help Stakeholders determine their attendance for Session 2:

Agenda
1. Welcome / Introductions / Housekeeping
2. Section 303.1, <i>Load Shed Service for Imports</i> <ul style="list-style-type: none"> a. AESO refresher on FFR Pilot objectives, timing, and plans for external reporting b. <i>Questions/Group Discussion on ISO rule amendments related to Section 303.1</i>
3. Co-located facilities <ul style="list-style-type: none"> a. AESO refresher on market asset configurations and physical facility configurations b. <i>Questions/Group Discussion on market asset and physical facility configurations</i>
4. Other Q&A
5. Next Steps
