**Re: Invitation for Stakeholder Consultation Session 2 on the Operating Reserve Market Review (“Operating Reserve Market Review”)**

The Alberta Electric System Operator (“AESO”) is providing notice regarding the upcoming stakeholder consultation session 2 on the Operating Reserve Market Review.

The AESO has reviewed the timing of the OR Market Review and remains of the view that it is prudent to continue with the initiative at this time. The incremental design changes proposed in this engagement are expected to enhance competition and ensure that the operating reserve markets are functioning efficiently in the short and medium-term, while long-term changes to facilitate the energy transition can be evaluated. The AESO recognizes that there are other ongoing initiatives and will ensure that stakeholders are made aware of any interdependencies as they are identified by the AESO.

### Purpose

The purpose of stakeholder session 2 is to share the AESO’s draft recommendation on the Group 1 market design elements that were discussed in session 1 on Nov 30, 2021. Additionally, further details and potential alternatives will be shared for the Group 2 market design elements. Stakeholders will have the opportunity to discuss and share feedback on the Group 1 draft recommendations and Group 2 alternatives presented in this session.
