

Date: January 27, 2022

Company name (if applicable): **Alberta Electric System Operator**

Needs identification document approval cancellation

Cancellation application requirement (CT1)

Provide the approval number to be cancelled and the rationale for the cancellation:

The AESO requests the cancellation of Needs Identification Document Approval Number U2014-447 which includes the modification of the Deerland 13S substation, and the addition of one 138 kV transmission line and associated facilities.

On June 16, 2021, in Decision 26568-D01-2021, the Commission rescinded Maxim Power Corp.'s approval and Permit and Licence for the Deerland Peaking Power Station and the Skaro 109S substation. The Maxim Power Corp. request for transmission system access to connect its Deerland Peaking Power Station has been cancelled. Therefore, there is no longer a need for the transmission facilities included in U2014-447.

Transmission line, substation and other transmission facility cancellation

Cancellation application requirement (CT2)

Provide the permit and licence number to be cancelled:

Cancellation application requirement (CT3)

Provide the connection order number to be cancelled, if applicable:

Cancellation application requirement (CT4)

Provide a letter from the independent system operator endorsing the cancellation. [Please submit along with your application].

Cancellation application requirement (CT5)

Describe whether any work on the construction of the transmission line or substation has been started, and if so, describe the extent of the work:

Cancellation application requirement (CT6)

If any work on the construction of the transmission line or substation has been started, describe how the site will be reclaimed:

Cancellation application requirement (CT7)

Confirm that personal notification was provided to occupants, residents, landowners and any other utilities or stakeholders and Indigenous groups on or directly adjacent to the project right-of-way or location:
