

Cancellation application

Date: 2023-11-24

Company name (if applicable): **Alberta Electric System Operator**

Needs identification document approval cancellation

Cancellation application requirement (CT1)

Provide the approval number to be cancelled and the rationale for the cancellation:

The AESO requests the cancellation of Needs Identification Document Approval 24644-D02-2020, which includes:

- The addition of a new 150-metre, 138-kV circuit, designated as Transmission Line 164BL, from the approved Harland 537S Substation to the existing Transmission Line 164L.
- The modification of Transmission Line 164L to accommodate the connection.
- The addition of 100 metres of underground fibre optic cable from the new 138-kV dead-end structure to the t-tap structure along Transmission Line 164BL.
- The addition of other associated equipment as more particularly described in the application.

The AESO is requesting cancellation of the above noted NID approval because the associated request for system access service was cancelled at the request of the market participant, BowArk Energy Ltd. Therefore, there is no longer a need for the transmission facilities included in 24644-D02-2020.

Transmission line, substation and other transmission facility cancellation

Cancellation application requirement (CT2)

Provide the permit and licence number to be cancelled:

Cancellation application requirement (CT3)

Provide the connection order number to be cancelled, if applicable:

Cancellation application requirement (CT4)

Provide a letter from the independent system operator endorsing the cancellation. [Please submit along with your application].

Cancellation application requirement (CT5)

Describe whether any work on the construction of the transmission line or substation has been started, and if so, describe the extent of the work:

Cancellation application requirement (CT6)

If any work on the construction of the transmission line or substation has been started, describe how the site will be reclaimed:

Cancellation application requirement (CT7)

Confirm that personal notification was provided to occupants, residents, landowners and any other utilities or stakeholders and Indigenous groups on or directly adjacent to the project right-of-way or location:
