

Cancellation application

Date: 2024-02-06

Company name (if applicable): **Alberta Electric System Operator**

Needs identification document approval cancellation

Cancellation application requirement (CT1)

The AESO requests the cancellation of Needs Identification Document Approval 21169-D02-2019, which includes:

- a) The addition of one 138-kilovolt circuit to connect the McLaughlin Wind Power Plant to Transmission Line 164L using a T-tap configuration.
- b) The modification, alteration, addition or removal of associated equipment as more particularly described in the application.

The AESO is requesting cancellation of the above noted NID approval because the associated request for system access service was cancelled at the request of the market participant, McLaughlin Wind LP. Therefore, there is no longer a need for the transmission facilities included in 21169-D02-2019.

Transmission line, substation and other transmission facility cancellation

Cancellation application requirement (CT2)

Provide the permit and licence number to be cancelled:

Cancellation application requirement (CT3)

Provide the connection order number to be cancelled, if applicable:

Cancellation application requirement (CT4)
