**Instructions:**

1. Please fill out the section above as indicated.
2. Please respond to the questions below and provide your specific comments.
3. Email your completed comment matrix to [energystorage@aeso.ca](mailto:energystorage@aeso.ca) by April 27, 2020.

**The AESO is seeking comments from Stakeholders with regard to the following matters:**

	Questions	Stakeholder Comments
1.	Are there areas where further clarity on expected participation would be helpful?	The UCA understands the scope of the short-term implementation process and fully supports the principles for the AESO Energy Storage Roadmap.
2.	Are there areas of market participation that in your view need special consideration for energy storage that are not identified in the overview document?	We recommend that a clear definition of energy storage as a unique asset type is established and used throughout the different phases. Even though behind-the-meter storage is outside the scope of this phase, it is important that the AESO clearly identifies uses of storage at the residential level when considering market access and participation.
3.	Additional comments	

Thank you for your input. Please email your comments to: [energystorage@aeso.ca](mailto:energystorage@aeso.ca).
