

# ISO Rules

## Part 300 System Reliability and Operations

### Division 305 Contingency and Emergency

#### Section 305.4 System Security

#### Applicability

- 1 Section 305.4 applies to:
- (a) a **market participant**; and
  - (b) the **ISO**.

#### Requirements

##### ISO Responsibilities

- 2(1)**—The **ISO** must schedule to prevent a threat to **system security**.
- (2)**—The **ISO** may schedule out of the **merit order** to prevent a threat to **system security**.
- (3)**—The **ISO** must issue **dispatches** in a manner to prevent a threat to **system security**.
- (4)**—The **ISO** may issue **dispatches** out of the **merit order** to prevent a threat to **system security** or to return the **interconnected electric system** to a safe and reliable state.
- (5)**—The **ISO** must issue **directives** to prevent a threat to **system security** or to return the **interconnected electric system** to a safe and reliable state.
- (6)**—The **ISO** must, when there is a **system emergency**, use reasonable efforts to promptly advise:
- (a) affected **legal owners** of a **transmission facility**; and
  - (b) all **pool participants**.

##### Market Participant Responsibilities

- 3** A **market participant** must use reasonable efforts to promptly advise the **ISO** upon becoming aware of any circumstance with respect to its facilities that could be expected to adversely affect **system security** or the **interconnected electric system's** ability to deliver energy.
