Re: **Late Stakeholder Comments on Letter of Notice for Development for Proposed New ISO Rule – Section 502.11, *Substation Technical and Operating Requirements* (“Section 502.11”)**

On December 11, 2018, the Alberta Electric System Operator (“AESO”) received late written comments on the proposed new Section 502.11 from EPCOR Distribution & Transmission Inc.

The following is hyperlinked to provide assistance in directing market participants to these written comments.

Proposed New Section 502.11
EPCOR Distribution & Transmission Inc.

The AESO is of the view that adherence to deadlines is an integral part of a fair and efficient ISO rules comment process. Stakeholder comments received after a specified deadline are considered at the discretion of the AESO.

Sincerely,

Alison Desmarais

Regulatory Coordinator
