Re: **Invitation for Stakeholder Consultation Session on the Development of the Proposed Amended Section 505.2 of the ISO Rules – Performance Criteria for Refund of Generating Unit Owner's Contribution ("Section 505.2")**

Further to the [Save the Date for Stakeholder Consultation Session on the Development of the Proposed Amended Section 505.2 of the ISO Rules – Performance Criteria for Refund of Generating Unit Owner's Contribution](#) posted on the AESO's website, the AESO is now providing Stakeholders with registration details and a copy of the proposed agenda for the Stakeholder consultation session on October 8, 2020.

### Purpose

It is the AESO's position that amendments to Section 505.2 are required for the purpose of:

- a) aligning Section 505.2 with the approved changes related to the legal owner of the generating unit's contribution ("GUOC") that the AESO applied for in the recent *ISO Tariff Compliance Filing Application*; and
- b) potentially, to reduce regulatory burden by adopting a simplified approach to the determination of how much GUOC can be refunded to the legal owner of a generating unit.

This session will give Stakeholders an opportunity to ask questions and give feedback on the AESO's proposed approach towards addressing the impact of the approved ISO tariff changes on Section 505.2.
