Transmission Change Management

Title: Transmission Cost Benchmarking

Change or Update: Update

Effective Date: January 28, 2016

Change Description

This change is to notify stakeholders that the AESO has updated the “Cost Benchmarking” section (information) under “Transmission” on the AESO external website; and to advise that an additional dashboard and an enhancement have been added.

Background

The AESO committed to provide updates to the “Transmission Project Cost benchmarking” dashboards twice a year (every six months) to reflect the updated transmission project cost data and information received from the TFOs.

Change Scope

The change of scope is as follows:

- The “updated date” has been revised to “2016/Jan28”
- All existing 11 dashboards have been updated, and all links remain the same
- A new dashboard called “Final Cost Report” has been added. This is the required link
 - o <https://public.tableau.com/profile/publish/FinalCostReport/FinalCost#!/publish-confirm>
- In the Project Scope Description Dashboard a new enhancement has been added. It allows the user to “search by project keywords”
 - o <https://public.tableau.com/profile/publish/ProjectScope/ProjectScope#!/publish-confirm>

Implementation Schedule

The updates to the Cost Benchmarking tool have been made on January 28, 2016.
