

Capacity Market Cost Allocation Terms & Conditions

Working group update

Richard Stout - Chair

Work group update

- Working group waiting for the AESO's legal opinion on the regulations for the use of deferral accounts
- Outstanding questions with the AESO
 - How will capacity costs be settled at the distribution points of delivery with distributed generators
 - How will capacity payments be made to distributed generators who participate in the Capacity Market
 - How will capacity costs be allocated to the distribution system owner(s)
 - Does the Transmission Tariff have to be settled at the same metering point as the Capacity Market cost allocations?
 - Do they both have to be gross or net

Work group: Next Steps

- Receive answers from the AESO
- Determine items that can be achieved with the Terms and Conditions
- Provide recommends at the next TDAG meeting
