The following charts summarize the activities of the ISO Rules External Compliance Monitoring group in Q3 of 2018 and the distribution of events over the past 4 quarters. Commentary

In Q3 2018, there was 1 new file opened, 17 files closed and ongoing work to address files opened in the previous quarter. Of the 17 files closed in the quarter, there were 7 referrals to the MSA of suspected contraventions. These referrals are distributed across 4 ISO rules.

The 32 referrals to the MSA made over the past 4 quarters are distributed across 20 pool participants and 11 ISO rules. Processing times are down from the last quarterly report with a median of 125 days between the occurrence of the event and closure of the handling of the event.

Note: As the AESO may refer multiple events in a single referral to the MSA, the AESO's count of referrals to the MSA may not match the MSA's count of AESO referrals, nor the count of penalties issued by the MSA in any given period from AESO referrals.

| Files Opened in Period | Compliance Files with a Date of Discovery falling within the reporting period. |

| Masked Participant ID | A unique identifier associated with each market participant for tracking Referred Files for that participant but without revealing the particular participant. The Masked Participant ID will NOT be consistent from report to report. |
| Masked Transmission Facility Owner (TFO) | A unique identifier associated with each TFO for tracking Compliance Monitoring Audits for that participant but without revealing the TFO name. The Masked TFO ID will NOT be consistent from report to report. |

This starts with the opening of a Compliance File and culminates in a decision to: send an Information Request regarding the event to the relevant market participant; to conclude that the data does not support an assessment of non-compliance and to drop the event; or, potentially, to make a referral to the AUC or MSA. |
| Referrals in Period | Compliance Files which have been referred to the MSA/AUC (as appropriate) in the period. Note that these may have file dates from previous quarters. |
