

## 1. Purpose

The purpose of this **reliability standard** is to prevent instability, uncontrolled separation, or **cascading** outages that adversely impact **reliability**, by ensuring the **ISO** has the data it needs to monitor and assess the operation of the area for which it has **reliability** coordination responsibility.

## 2. Applicability

This **reliability standard** applies to:

- (a) the **ISO**.

## 3. Requirements

**R1** Intentionally left blank.

**R2** Intentionally left blank.

**R3** The **ISO** must provide data and information, as requested and agreed upon to each **reliability coordinator** with which it has a **reliability** relationship using:

- R3.1** a mutually agreeable format;
- R3.2** a mutually agreeable process for resolving data conflicts; and
- R3.3** a mutually agreeable security protocol.

## 4. Measures

The following measures correspond to the requirements identified in section 3 of this **reliability standard**. For example, MR1 is the measure for requirement R1.

**MR1** Intentionally left blank.

**MR2** Intentionally left blank.

**MR3** Evidence of providing data and information as required in requirement R3 exists. Evidence may include electronic or hard copies of data transmittals, or other equivalent evidence.
