

ISO Rules

Part 300 System Reliability and Operations

Division 306 Outages and Disturbances

Section 306.3 Load Planned Outage Reporting

Applicability

- 1 This section 306.3 applies to:
 - (a) a **market participant** with load; and
 - (b) the **ISO**.

Requirements

Load Planned Outage Reporting

2(1) Subject to subsection 2(2), a **market participant** who has a planned decrease in its capability to consume load at a facility of forty (40) MW or greater, must comply with the **planned outage** reporting requirements of this section 306.3.

(2) Subsection 2(1) does not apply if the **market participant** has documented the decrease in a restated **available capability** for the facility, in accordance with section 203.3 of the **ISO rules, Restatements for Energy**.

(3) The **market participant** referred to in subsection 2(1) must submit to the **ISO** the following **planned outage** information, in a form the **ISO** approves and publishes on the AESO website:

- (a) the commencement date and time of the **planned outage**, but not where such date and time is historical;
- (b) the end date and time of the **planned outage**; and
- (c) the actual decrease, in MW, in the load capability.

(4) The **market participant** must submit the information to the **ISO** as soon as reasonably practicable after the **market participant** is aware of the **planned outage** information.

(5) Subsequent to the **ISO** receiving from **market participants** the submissions referred to in subsection 2(3), on each **business day** the **ISO** must aggregate all **planned outage** records for loads as submitted, and determine the aggregate daily **planned outages** in MW which the **ISO** will calculate as:

the sum of MWh of all submitted **planned outages** by time period;

divided by

the number of hours in the time period.

(6) Once the **ISO** has determined the aggregate daily **planned outages** under subsection 2(5), the **ISO** also must prepare a daily **planned outage** report and publish it each **business day** on the AESO website, which report must include:

- (a) the time and date the report was prepared; and
- (b) the daily average **planned outage** amount in MW, rounded to the nearest MW, for each **business day** of the then current **month** and the next three (3) successive **months**.

ISO Rules

Part 300 System Reliability and Operations

Division 306 Outages and Disturbances

Section 306.3 Load Planned Outage Reporting

(7) Subject to subsection 2(8), the **ISO** must keep confidential all **planned outage** information for loads submitted to it under this section 306.3, except as otherwise required to be made public under the provisions of section 103.1 of the **ISO rules**, *Confidentiality*.

(8) The **ISO** must publish on the AESO website the aggregate daily **planned outage** report in a manner that, in accordance with section 103.1 of the **ISO rules**, *Confidentiality*, seeks to preserve the confidential nature of any **planned outage** information as submitted by any one **market participant**, and precludes the identification of any one **market participant**, or other directly affected **pool participant**.

Revision History

Effective	Description
2011-09-30	Initial Release
2013-01-08	Removed reference to section 3.5 <i>Offers and Bids</i> , and replaced with section 203.3 <i>Restatements for Energy</i> .
2014-07-02	Renumbered from section 208.1 of the ISO rules to section 306.3 of the ISO rules; unbolded all references to “load” and “loads”; and replaced references to “outage” with “planned outage”.
