CURRENT YEAR MONTHLY DETAIL

2012 Fourth Quarter Calibration Factor $\%=\frac{\text { Carryforward }_{\text {Dec } 312011}+[(\text { Cost of Losses }- \text { Loss Revenues })-\text { Rider E Revenues }]_{\text {Jan 1- Dec } 312012}}{[\text { Hourly Loss Factor Customer Volumes } \times \text { Hourly Pool Price }]}$
[Hourly Loss Factor Customer Volumes $\times$ Hourly Pool Price] oct 1- Dec 31, 2012
The following table provides a summary of the AESO's projected year-end losses account balance for Rider E for January to December 2012.

Notes:

1. The Rider E Calibration Factor will apply to all loss factor customers receiving service under Rates STS, DOS, XOS, and IOS as provided on the Rider E rate sheet
2. If the Rider E Calibration Factor for Q4 remained in place during Q4, it would collect the variance between cost of losses and revenues by the end
of 2012, as currently forecasted.
3. Forecast amounts in the above table and calculation reflect the AESO's best estimates at the time of preparation. The values represent forecasts and estimates only, and final values will differ
4. Actual amounts in the above table are subject to revision in future periods due to interim and final settlement and to other adjustments.
5. The calibration factor calculation itself is based on summing hourly costs, revenues, and loss factor customer volumes $x$ pool price, and the same result will not be obtained by using the monthly values presented.
Numbers may not add due to rounding
"NA" means "not applicable".
The revenue, cost and Rider E amounts are shown on a production month basis.
6. The following system level metering adjustments have occurred in 2012 and have been incorporated into Rider E consistent with the methodology pertaining to
e allocation of outstanding variances,
a refund of $\$ 5.4$ million related to January to August 2011 allocated over Q1 to Q4 in 2012 (first incorporated into Rider E in Q1),
a refund of $\$ 0.5$ million related to December 2009 to December 2010 allocated over Q2 to Q4 in 2012, and

- a refund of \$4.1 million related to December 2010 to October 2011 allocated over Q2 to Q4 in 2012.
