

Alberta Reliability Standard

Operating Personnel Responsibility and Authority

PER-001-AB-0.2

1. Purpose

The purpose of this **reliability standard** is to ensure that the operating personnel of the **ISO** have the responsibility and authority to implement **real time** actions to ensure the stable and reliable operation of the **bulk electric system**.

2. Applicability

This **reliability standard** applies to:

- (a) the **ISO**.

3. Requirements

R1 The **ISO** must provide its operating personnel with the responsibility and authority to independently direct **real time** actions to ensure the stable and reliable operation of the **bulk electric system**.

4. Measures

The following measures correspond to the requirements identified in section 3 of this **reliability standard**. For example, MR1 is the measure for requirement R1.

MR1 Evidence of providing operating personnel with the responsibility and authority to implement **real time** actions as required in requirement R1 exists. Evidence may include, but is not limited to, a letter, memo of authority, or job description that states the responsibilities and authorities in accordance with requirement R1, or other equivalent evidence.
